

Cumulative Contents

<i>Editorial</i>	vii	<i>Reviews</i>	
<i>Information for Contributors</i>	xi	Studies of neoplasia in the Min mouse A.R. Shoemaker, K. A. Gould, C. Luongo, A.R. Moser and W. F. Dove (USA)	F25
<i>Mini-reviews</i>		Everything you have ever wanted to know about Yin Yang 1..... Y. Shi, J.-S. Lee and K.M. Galvin (USA)	F49
Virocrine transformation D. Drummond-Barbosa and D. DiMaio (USA)	M1		
Interdependence between muscle differentiation and cell-cycle control R. Maione and P. Amati (Italy)	M19	<i>Meeting reports</i>	
Translational regulation of maternal mRNA L.E. Hake and J.D. Richter (USA)	M31	Whitehead Symposium on Cancer J.M. Adams (Australia)	R15
Cyclin-dependent kinase inhibitors: the age of crystals J. Pines (UK)	M39	Gene Therapy 1996 G. Dranoff (USA)	R21
<i>Review</i>		Cancer genetics and tumor suppressor genes. Sponsored by Cold Spring Harbor Laboratory – August 14–18, 1996 D.M. Livingston (USA)	R25
Dbl family proteins I.P. Whitehead, S. Campbell, K.L. Rossman and C.J. Der (USA)	F1	Maturation of cancer vaccinesA meeting report on 'Cancer Vaccines 1996,' sponsored by the Cancer Research Institute, held October 7–9, 1996 D. Pardoll (USA)	R33
<i>Meeting reports</i>		DNA replication under the Rigi Kulm. EMBO workshop on 'Molecular Biology of DNA Replication', Weggis, Switzerland, 8–13 September 1996 P.C. Van der Vliet (The Netherlands)	R37
Wnt Meeting 1996 K.M. Cadigan and R. Nusse (USA)	R1	<i>Opinion piece</i>	
NFκB/1κB proteins. Their role in cell growth, differentiation and development. Madrid, Spain, July 7–10, 1996 U. Siebenlist (USA)	R7	Mechanism of p53 degradation J.P. Brown and M. Pagano (USA)	O1
<i>Information for Contributors</i>	vii	<i>Information for Contributors</i>	vii
<i>Mini-reviews</i>		<i>Mini-review</i>	
Towards a unified model of tumor suppression: lessons learned from the human <i>patched</i> gene M. Dean (USA)	M43	The <i>FHIT</i> gene, a multiple tumor suppressor gene encompassing the carcinogen sensitive chromosome fragile site, <i>FRA3B</i> K. Huebner, P. Hadaczek, Z. Siprashvili, T. Druck and C.M. Croce (USA)	M65
Cdc25 protein phosphatases in cell proliferation G. Draetta and J. Eckstein (Italy, USA)	M53		

*Reviews*

Contribution of oncogenes and tumor suppressor  
genes to myeloid leukemia

*L. Wolff (USA)*

F67

The IGF-I receptor in cell growth, transformation  
and apoptosis

*R. Baserga, A. Hongo, M. Rubini, M. Prisco and  
B. Valentini (USA, Italy)*

F105

The adenomatous polyposis coli (APC) tumor sup-  
pressor

*P. Polakis (USA)*

F127

*Meeting report*

The control and execution of programmed cell death:  
an update

*C.S. Duckett and C.B. Thompson (USA)*

R45

*Cumulative contents, Vol. 1332*

*Author index*
